FCC Laboratory
7435 Oakland Mills Rd.
Columbia, MD 21046

SUBJECT: Class II Permissive Change for FCC ID: **E2KAX200NG**

The product, WLAN and BT, 2x2 PCIe M.2 2230 adapter card, has been granted by FCC dated 02/17/2020 under FCC ID: **E2KAX200NG**. The intention of this application is to enable the modular certified FCC ID: **E2KAX200NG** to be integrated in DELL Portable Computer/ P106F.

The module installed into host platform mentioned above is electronically and mechanically identical to the original certified module. Software security remains unchanged from the original application. The Original FCC testing on module under FCC ID: E2KAX200NG was performed with an antenna of higher gain, and the antenna was connected to the module in an open environment. The current host platform under application uses an antenna of the same type but of lower gain and is installed inside the host platform enclosure. The physical restraints introduced by the host platform should have resulted in equal or lower level of radiated emission. Therefore, additional Radiated emission testing is not necessary.

A handwritten signature in black ink that reads "Jim Wu".
