

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

**EUT Housing and
Board View 1**

**Solder
Board-Component
View 1**

Solder Board-Component View 2	 A photograph showing a green printed circuit board (PCB) with a circular component attached. The component has a black base and a silver-colored outer ring. A yellow wire is connected to the component. The PCB is placed on a blue textured surface. A black ruler with white markings is visible at the bottom and left, showing measurements in millimeters (mm).
Solder Board-Component View 3	 A photograph showing the same green PCB and circular component from a different angle. The component's black base is more prominent, and the yellow wire is visible. The PCB is on a blue textured surface. A black ruler with white markings is visible at the bottom and left, showing measurements in millimeters (mm).

Solder Board-Component View 4	 A photograph showing the back of a circular electronic component with a black wire attached. The component is placed on a blue textured surface next to a black ruler with white markings. The ruler shows dimensions in millimeters (0 to 100 mm) and centimeters (0 to 10 cm).
Solder Board-Component View 5	 A photograph showing the front of a rectangular electronic component with various chips and components. The component is placed on a blue textured surface next to a black ruler with white markings. The ruler shows dimensions in millimeters (0 to 100 mm) and centimeters (0 to 10 cm).

Solder Board-Component View 6	 A photograph showing a small, dark, rectangular component with gold-colored solder points, resting on a blue textured surface. The component is positioned next to a black ruler with white markings, indicating its size in millimeters. The ruler shows measurements from 0 to 100 mm.
Antenna View	 A photograph showing two circular wireless charging antennas, labeled "Wireless Charging Antenna 1" and "Wireless Charging Antenna 2", resting on a blue textured surface. The antennas are connected to a green printed circuit board (PCB) via a black cable. The PCB is positioned next to a black ruler with white markings, indicating its size in millimeters. The ruler shows measurements from 0 to 100 mm.
