
Declaration on model difference

We the undersigned hereby confirm that these models are identical, and all models have the same RF module , Antenna, schematics and component. Only different on model name and , PCB layout. For technical reasons, in order to make the two headphones better interconnected, they are connected together through wireless Bluetooth to form the left and right channels. In addition, because the corresponding left and right earphones have different structures, they cannot be put into the shell without changing the layout. So the layout is different, but the materials used are the same.but the materials used are the same, but the layout is different.Although PCB LAYOUT is different, antenna, crystal oscillator and chip are all the same, After measuring and comparing the power of two earphones, the laboratory chose the one with higher power to test. so it has no effect on test.

Production name	Trademark	FCC	Model no.
VIVITAR TRULY WIRELESS SPORT EARBUDS	N/A	2AMD8-BLK-57W2	V40057W2-BLK, SKU#2199136
