

# BMODIT Labeling Requirements

## Module Label

A label will be stamped to the shield cover. The size of this label will be no greater than 16x16mm. And will contain the following text:

FCC ID: 2ADCB-BMODIT  
IC: 6715C-BMODIT  
Acuity Brands Lighting Inc. BMODIT

The label can also contain information related to manufacturing identification. The above information is the only required information.

Final Specification:

## Module Label Picture

## Host Label

A label will be affixed to the host device with the following text:

Contains FCC ID: 2ADCB-BMODIT  
Contains IC: 6715C-BMODIT  
Acuity Brands Lighting Inc. BMODIT

This device complies with Part 15 of the FCC Rules.  
Operation is subject to the following two conditions:  
(1) This device may not cause harmful interference,  
and (2) this device must accept any interference  
received, including interference that may cause  
undesired operation.

The label will be properly sized to fit the application. If the host device is smaller than the palm of a hand, the label will be:

Contains FCC ID: 2ADCB-BMODIT  
Contains IC: 6715C-BMODIT  
Acuity Brands Lighting Inc. BMODIT

The label will be properly sized to fit the application.

Example:

User Manual:

The BMODIT user manual will contain all information required to create a label.
