FCC/ISED Regulatory notices

19 October 2022

Brand: Bosch

Model: LS4+ with Variants NA, ECE/RoW

**FCC ID: AUXS-MBCI2LS4PN1 (NA) ,
AUXS-MBCI2LS4PR1 (ECE/RoW)**

IC: 25847-MBCI2LS4PN1 (NA)

Modification statement

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Interference statement

This device complies with Part 15 of the FCC Rules and Industry Canada licence-exempt RSS standard(s).

Operation is subject to the following two conditions:

- (1) this device may not cause interference, and
- (2) this device must accept any interference, including interference that may cause undesired operation of the device.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence.

L'exploitation est autorisée aux deux conditions suivantes :

- (1) l'appareil ne doit pas produire de brouillage,*
- (2) et (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.*

**Distance of use of the device**

This device complies with FCC and ISED radiation exposure limits. Equipment should be operated with minimum distance of **2,00** cm between the radiator and the user.

*Cet équipement est conforme aux limites d'exposition aux radiations établies par FCC et l'ISDE. L'équipement doit être utilisé avec une distance minimale de **2,00** cm entre l'antenne de l'appareil et l'utilisateur.*

FCC Class B digital device notice

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
