Use Instructions

Getting Started HF 710
Prior to using your Stereo Bluetooth headset,please follow the steps below:
1.Ensure your Bluetooth headset is fully charged.
2.Pair your charged Bluetooth headset with a Bluetooth-enable mobile phone, before use for the first time,it is suggested that you fully recharge the battery first.

Charging Your Headset
The indicator will turn red while charging it turns blue after 2-3 hours when it is fully charged. (Note: if blue indicator flashes quickly and could not enter pairing, it tells the battery need to be charged)

Turning on/off the headset
Press and hold the MFB for 3 seconds until " Power On " & " Power off " Voice prompt.

01

About pairing function, please refer to " Pairing Your Headset " .
Turn on/off by NFC
(**Note:** Version of NFC function on mobile phone must be 4.1 or above)
In off status, turn on your mobile Bluetooth&NFC function and place it 1 cm closing to " **NFC■** " , the headset boots with " Power On " prompt and will your mobile phone prompts whether to pair or not, press " OK " and it will connect automatically with " Connected " prompt.
(Repeat to turn it off)
Pairing Your Headset
The headset works with Bluetooth-enable phones, prior to using and pairing your headset for the first time ,please check if your mobile phone is Bluetooth-enable or not.
The headset pairing procedure may vary depending on the setting of your mobile phone,For further information, please contact the manufacture or distributor of your mobile phone.
Subsequent Pairing
1. Get the headset and the mobile phone close to each other.
2. Ensure the headset is turned off.
3. Press and hold the MFB for 5 seconds until voice prompt " Bluetooth Pairing " and the blue&red indicator flash alternately, the headset enters pairing.
4. Activate the Bluetooth function on your mobile phone.
5. Search for Bluetooth devices select " HF 710 " and it will connect automatically with " Connected " announcement.
6. If password is needed please enter " 0000 " .
7. Now you can use your Bluetooth headset to listen to the music and make a call.
8. Some mobile phones ,when they are re-started ,the headset will be connected with the mobile phone automatically.
Connect&Standby
Turn on the headset and it will connect the last connected mobile phone automatically, if successfully connected, it will enter standby mode or if it fall, it will shut down automatically after 5minutes.
Multipoint Connection
Method 1
After mobile phone is paired successfully with the headset, turn off the headset and re-enter pairing status, then use your other mobile phone to pair with the headset. After the second mobile phone is paired with the headset successfully, search for the paired record on your first mobile

02

---

phone and connect it.
Method 2
After mobile phone is paired successfully with the headset, turn off the headset and re-enter pairing status, then use your other mobile phone to pair with the headset. After the second mobile phone is paired with the headset successfully, turn off the headset again. Then when you turn on you headset and it will connect the last connected 2 mobile phones automatically.
Wearing Your Headset
Please follow the Left/Right wearing note inside the headband, or ensure the button position on your right when wearing the HF 710.
Using Your Headset

Next Track
Connected with stereo mobile phone and playing music, press the "Next Track " key to select next track.

3.5 audio function works in on or off status, music will be cut down to the MIN volume in order not to affect the talk, the headset will return to music after call end.

Troubleshooting

If you are unable to connect your speaker with the mobile phone, please try the following steps:
● Ensure your speaker is turned on and is fully charged.
● Ensure the speaker has been paired with your mobile phone.
● Ensure your mobile phone's Bluetooth feature is activated. Please refer to your mobile phone user guide for specific instruction.
● Ensure the speaker is within 10 meters range of your mobile phone and there are no obstructions, such as walls or other electronic devices.
If the above steps do not solve your problem, please recharge the speaker and remove your mobile phone battery for a short time.

Safely Information

Check local laws regarding the use of mobile phones and speakers while driving,If you use the speaker while driving, ensure your attention and

04

---

focus remains on the road and you drive in a responsible and safe manner.
Never allow children playing with the speaker small parts may be a choking hazard.Observe all signs that require an electrical device or RF radio product to be switched off in designated areas, (These could include hospitals, blasting areas, and potentially explosive environments.)Turn off your speaker prior to boarding an aircraft, Do not use your speaker in an aircraft,Never mount or store your speaker over any air bag development area as serious injury may result when the air bag deploys. Do not open or mutilate the built-in battery. Dispose of batteries according to local regulations. Do not dispose as household waste.

Maintenance

● Turn your speaker off before placing it in your pocket or bag to avoid the MBF button is accidentally touched.
● Do not expose the speaker to liquid or moisture environment as it is not waterproof.
● Do not use abrasive cleaning solvents to clean the speaker.
● Do not expose the speaker to extreme temperature conditions. The best store temperature range is from -10 to +60, otherwise the life of the speaker will be influenced.
