GETTING STARTED

1. Pull out the retractable phone clamp, place your smartphone in, and adjust the cooling fan's position as desired.

[image placeholder]

Some phone cases are made of heat-insulating material. To ensure optimum cooling, remove your phone case or any attached accessory before using the cooling fan.

2. Connect the cooling fan to a compatible USB power adapter (not included) using the USB Type-C to USB Type-A power cable.

[image placeholder]

3. Switch on the cooling fan. The cooling fan will begin dissipating heat away from your smartphone.

[image placeholder]

CUSTOMIZING THE COOLING FAN

From customizing its lighting effects to changing its fan speed, the cooling fan comes with its own mobile app designed to unleash its features for greater style and better gaming immersion wherever you are.

[app name]

1. Download the mobile app on your smartphone.
2. Launch the app and follow the onscreen instructions

SAFETY AND MAINTENANCE

SAFETY GUIDELINES

In order to achieve maximum safety while using the Mobile phone cooler, we suggest that you adopt the following guidelines:

Should you have trouble operating the device properly and troubleshooting does not work, unplug the device and contact the Razer hotline or go to support.razer.com for support. Do not attempt to service or fix the device yourself at any time.

Do not take apart the device and do not attempt to operate it under abnormal current loads. Doing so will void your warranty.

Do not leave the cooling fan switched on when your smartphone is not in use.

Moisture may form on the surface of the cooling fan and your smartphone when using these together in humid conditions. If this occurs, wipe off any traces of moisture before using your devices.

Keep the device and its components away from liquid, humidity or moisture. Operate the device and its components only within the specific temperature range of 0°C (32°F) to 40°C (104°F). Should the temperature exceed this range, unplug the device in order to let the temperature stabilize to an optimal level.

MAINTENANCE AND USE

The Mobile phone cooler requires minimum maintenance to keep it in optimum condition. Once a month, we recommend you clean it using a soft cloth or cotton swab to prevent dirt buildup. Do not use soap or harsh cleaning agents.

LIMITED PRODUCT WARRANTY

For the latest and current terms of the Limited Product Warranty, please visit [razer.com/warranty](https://www.razer.com/warranty).

LIMITATION OF LIABILITY

Razer shall in no event be liable for any lost profits, loss of information or data, special, incidental, indirect, punitive or consequential or incidental damages, arising in any way out of distribution of, sale of, resale of, use of, or inability to use the Product. In no event shall Razer’s liability exceed the retail purchase price of the Product.

GENERAL

These terms shall be governed by and construed under the laws of the jurisdiction in which the Product was purchased. If any term herein is held to be invalid or unenforceable, then such term (in so far as it is invalid or unenforceable) shall be given no effect and deemed to be excluded without invalidating any of the remaining terms. Razer reserves the right to amend any term at any time without notice.

FCC DECLARATION OF CONFORMANCE

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and the receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio TV technician for help.

FCC Caution Statement

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by party responsible for compliance could void the user authority to operate this equipment.

FCC Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. End users must follow the specific operating instructions for satisfying RF exposure compliance. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.
