

CQL1603-C Bluetooth Speaker

Instruction Manual (Read before proceeding)

Power

- The speaker works on an internal rechargeable lithium battery. Please charge your speaker fully before first use.
- Connect the speaker's Micro USB socket with the power source's USB port through USB cable.
- A red light indicates the speaker is charging. When the battery is full, the red light will turn off.
- Disconnect the USB cable when it is fully charged.

BT Speaker Operation

- Turn on wireless speaker by flicking the switch on the bottom to “.” position. The Blue light will flash quickly. This indicates the speaker is entering Wireless Pairing mode.
- Turn on the Bluetooth function on your device and select the speaker “SB-01” to connect. You device will pair without a password but if required enter 0000 to finalise the pairing.
- Start playing music on your device. Keep your device within 10 meters of your speaker to ensure optimal audio quality.
- Turn the speaker off when not in use by flicking switch to the OFF position.

Light Operation

- Turn on the LED light ring on the front by pushing the switch “Off ● On” to “On” position.
- Colorful light will either work independently or dance with the beat of music.
- Turn off the colorful light by pushing the switch to “Off ” or “ ● ” position

Caution:

- This is not a toy. Please keep away from small children.
- Please keep away from water / heat.
- Low power may cause poor connection even no working of Bluetooth.
- Do not over-charge the battery.
- Battery pack shall not be exposed to excessive heat such as sunshine, fire or the like

FCC Statement

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
