**Subject: Class II Permissive Change for FCC ID: 2AJYU-8XM0001, Grant date: 07/07/2023 (Model: SIM7912A)**

To whom it may concern

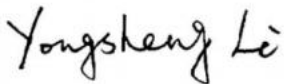

This is to request a Class II permissive change to our product (Model: SIM7906A)

The model SIM7912A had added the LTE Band 48. (FCC ID: 2AJYU-8XM0001, Grant date: 07/07/2023). The difference between SIM7912A and SIM7906A is that the category of SIM7912A is CAT12, with 3CA and 2CA, but the category of SIM7906A is CAT6, only 2CA. Their difference is achieved through software (NV setting). There is no hardware change in the product itself. So, the previous C2PC application report (For SIM7906A, FCC ID: 2AJYU-8XM0001, Grant date: 11/30/2022) still applies to the current C2PC. The report number is I22W00071-WCDMA+LTE-RF-Rev1.

Please contact me if you have any questions or need future information regarding this application.
