Report No. : ER04-11-043FRFa

Dear Sir or Miss

The below product E-filing is sent to FCC on 2004/12/16 .This product is a 802.11a+b+g dongle.

So it has to comply FCC part 15 subpart C and E.

Product Name : Double 108 Mbps Wireless USB 2.0 Adapter WG111U

Model Number : WG111U

Brand Name : NETGEAR

FCC ID : PY3WG111U

Form 731 confirmion Number: EA272111 (15C)

Form 731 confirmion Number: EA550500 (15E)

When we filed the application , we took some mistakes in the filing procedure. But we couldn't change the data of application form731 because it has been finished filing.

Could you help us to change some content of the above form 731.

1. We forgot to click the "compositive device" when filing DTS portion, so we got problem to file UNII portion with same ID.
Finally, we added a "-" in the ID to file UNII portion in order to submit in advance.

So please help me to click the "compositive device of item 13" in the
"Form 731 confirmion Number: EA272111 (15C) " and revised the form
731(EA550500) the FCC ID form PY3-WG111U to PY3WG111U.

2. We loss to put one frequency band in the 15C (EA272111)
The frequency band should add 5725-5850 MHz band ,
The max peak output power is 44mW.

If you have any question , please contact with me.
