

Solder Board-Component View 9	 A photograph of a green printed circuit board (PCB) component, labeled "BL2077 MC V0.2" and "2024-7-17", mounted on a blue textured surface. The component is rectangular with rounded corners and features several surface-mounted components, including a microcontroller, resistors, and a connector. A black L-shaped ruler is placed next to the component for scale, showing dimensions in millimeters.
Solder Board-Component View 10	 A photograph of a yellow printed circuit board (PCB) component, labeled "BL2077 MC V0.2" and "2024-7-17", mounted on a blue textured surface. The component is rectangular with rounded corners and features two large circular holes and several surface-mounted components, including a microcontroller, resistors, and a connector. A black L-shaped ruler is placed next to the component for scale, showing dimensions in millimeters.

Solder Board-Component View 13	 A photograph of a small, rectangular, gold-colored solder board component. The component has four circular holes along its length. It is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters (0 to 100) and centimeters (0 to 10). The component is approximately 100 mm long and 10 mm wide. The text "BL3077 LED V0.2 2024-11-7" is printed on the component.
Antenna View	 A photograph showing the internal components of a device, specifically the antenna assembly. A yellow rectangular antenna board is mounted on a black plastic housing. A red ribbon cable is connected to the board. A red box highlights a small component on the board, labeled "BT Antenna" with a red arrow pointing to it. The device is resting on a light-colored, textured surface.
