Attn: OET Dept.

Ref: FCC Class II Permissive change for FCC ID: QDS-BRCM1019
Applicant: Broadcom Corporation

Dear Examiner,

Pursuant to Section 2.1043 of the FCC rules, we hereby request a Class II permissive change for FCC ID: QDS-BRCM1019, originally granted on 11/30/2005.

The major changes filed under this application are:

Change #1 Adding portable platform, HP HSTNN-C02C.

SAR testing is performed with the mentioned platform to demonstrate RF compliance. Co-location with Bluetooth module (FCC ID: QDS-BRCM1018) is also evaluated to ensure RF compliance.

The WNC antenna 81.EBC15.002 (main)/81.EBC15.001 (Aux) used for HP HSTNN-C02C, is the same type as WNC, 81.ED415.002 and Hitachi HFT17-DL03, which are already certified in previous filing for FCC ID: QDS-BRCM1019, and has a lower gain.

If you have any questions regarding this application, please feel free to contact me.

Sincerely yours,

Daniel Lawless
