Ref: Re-Assessment for IC Certification No: 3356B-TR7240 (Original approval date: 12/16/13);
FCC ID No.: DO4TR7240 (Original approval data: 12/16/13)
Applicant: Checkpoint Systems Inc.

Dear Examiner,

This is to request for a Re-Assessment of the PCB module, Model Name: TR7240, IC Certification No: 3356B-TR7240 & FCC ID No.: DO4TR7240

The change filed under this application is:

- Additional antenna model N10/ antenna type loop are added

Additional RF testing won't be required as N10 is a much smaller antenna, creates lesser field, and lower detection than the tested P10 antenna.

If you have any questions regarding this application, please feel free to contact me.
