CAUTION READ THIS INSTRUCTIONS BEFORE USING THE PRODUCT.
This product is a Class B radio frequency (RF) interference device.
It may cause interference to other electronic equipment.
If interference occurs, you may need to take the following steps:
1. Reorient the product or the receiving antenna.
2. Increase the distance between the product and the receiving antenna.
3. Consult the manufacturer of the receiving antenna for more information.
4. Consult the manufacturer of the product for more information.

WARNING DO NOT OPEN THE CASE OR COVER OF THE PRODUCT.
The product contains high voltage components which can cause
electric shock or fire. Do not touch the internal components.
If you need to open the case or cover, please consult the
manufacturer of the product for more information.

NOTE The product is not to be used in the following areas:
1. Areas where the use of fire is prohibited.
2. Areas where the use of fire is restricted.
3. Areas where the use of fire is not allowed.
4. Areas where the use of fire is not recommended.
