## 1 Overview -- 28

HS1288

eiden <sup>C</sup>The "Stellar Pro Multicolor Series" is a new generation electronic shelf label (ESL) developed. independently by Hanshow Technology. It operates on a 2.4GHz wireless private protocol, enabling bidirectional communication with the ESL controller. This allows for various functions such as price changes, page switching, and flashing lights. The Stellar Pro series boasts a long lifespan and diverse display options, making it suitable for a wide range of applications including traditional retail, new retail, department stores, fashion, healthcare, 1288 culture, and entertainment industries.

### 1.1 System architecture

Hanshow ESL system includes ESLs, ESL Controller, ESL-Working, All-Star, Database, Integration server, CloudMonitor and Handheld Terminal (PDA), as shown in Figure 1-1. Specifically, the ESLs are used for electronically displaying product information such as name. and price, and services available for customers.

### 1.2 Features

HS1288

2023-09-28 The features of Stellar Pro multicolor are as follows:

- Display colors include: BWRY(Black-White-Red-Yellow) display.
- Currently there are 3 available ESL sizes: 1.54°, 2.13° and 2.66°.
- Operating frequency band: 2402MHz ~ 2480MHz, 2473.3MHz-2493.5MHz (Japan only) maximum transmit power 1dBm. Confident
- Built-in LED indicator: 7-color display assists in product location.
- Embedded NFC chip: Supports NFC function.
- Stellar Pro ESLs support multiple functions, including binding/unbinding, updating, instant flashing, multi-page storage, page switching, geolocation, temperature 2023-09 collection and so on.

2023-09-28

HS1288 Confidential 2023-09-28

- Supports AES-128 encryption.
- Supports OTA (Over-The-Air) upgrade.

## 6 Precautions

During transportation and usage of Stellar Pro-multicolor ESLs, please note the following precautions.

### 6.1 Transportation considerations

Avoid the following considerations during transport:

- Water leakage or heavy moisture
- Heavy stacking
- High heat conditions above 40  $^\circ \! \mathbb C$

## 6.2 Precautions for use<sup>23-09-28</sup>

Follow the precautions:

- The room-temperature ESLs operate best in normal operating and storage environment, 0°C ~ 40°C, 45% ~ 65% RH.
- Keep ESLs within the specified temperature range, otherwise ESL screens might be damaged and the battery life might be shortened.
- The output capacity will degrade at low temperature.
- Frequent communications or updates might shorten battery life during the use.
- Avoid dropping or tossing ESLs.
- Do not disassemble ESLs without permission. $^{9-2.9}$
- If the screen creaks due to external factors, deal with it quickly.
- The mineral substances in rainwater, moisture or liquids might corrode the electronic circuit Avoid water on the product as much as possible.
- Regularly clean the screen.
- Promptly remove cosmetics, perfume and other dirty on ESLs to avoid screen, case, or lens damaged.
- Do not use ESLs in water, otherwise no warranty will be provided.
- Avoid direct contact with chemical detergent.

HS1988

Do not install ESLs in a strong magnetic environment.  $20^{23}$ 

Contidential

HS11886 Confidential

## 7 FCC ID warning

HS1288

# 7.1 Warning for nameplate

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- 1. This device may not cause harmful interference, and
- 2. This device must accept any interference received, including interference that may cause contracted undesired operation.

### 7.2 Warning for product manual

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
