

Dear Tim,

Pls find my following responses:

1. Users manual with RF exposure statments has been updated and uploaded. We will update it again with DoC statement.
2. Updated.
3. Yes, we measure spurious emission up to 25 GHz for low , middle and high channel. But, the frequency higher than 3 GHz has not any obvious spurious signal.
4. Has been deleted and uploaded.

B.R.
Daniel
