Q11 - Additional Regulatory Compliance Information

2

This product bears the selective sorting symbol for Waste electrical and electronic equipment (WEEE). This means that this product must be handled pursuant to European directive 2012/9/EU in order to be recycled or dismantled to minimize its impact on the environment.

User has the choice to give their product to a competent recycling organization or to the retailer when they buy a new electrical or electronic equipment.

PCC Statement
This device complies with part 15 of the FCC Rules. Operation is subject to the followin
two conditions: (1) This device may not cause harmful interference, and (2) this device
must accept any interference received, including interference that may cause undesire

must accept any interference received, including interference that may cause undesired operation. This device has been tested and found to comply with the limits for a Class B digital device, pursuant to Part IS of the FCC Rules. These limits are designed to provide reasonable protection gasinst harmful interference in a relational installation. This equipment generates, uses and can radiate radio frequency energy and, if not instaled and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation of this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following massures: - Beoriet or relocate the previous national.

measures: - Bereinet or relocate the receiving antenna. - Increase the separation between the equipment and receiver. - Connect the equipment hind an outlet on a circuit afferent from that to which the receiver is connected. - Consult the dealer or an experienced radio/TV technician for help.

FCC Note: Caution: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

WLAN operation in the 5.9GHz band is restricted to Indoor Use Only.

RF Exposure Information

This device meets the government's requirements for exposure to radio waves

This device is designed and manufactured not to exceed the emission limits for exposure to radio frequency (RF) energy set by the Federal Communications Commission of the U.S. Government.

This device complies with FCC radiation exposure limits set forth for an uncontrolled environment. In order to avoid the possibility of exceeding the FCC radio frequency exposure limits, human proximity to the antenna shall not be less than 24 cm during normal operation.

ISED Notice

This device complies with Industry Canada license-exempt RSS standard(s). Operation is subject to the following two conditions:

(1) this device may not cause interference, and

(2) this device must accept any interference, including interference that may cause undesired operation of the device.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes:

(1) l'appareil ne doit pas produire de brouillage, et

(2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en

CAN ICES-003 (B)/NMB-003(B)

This Class B digital apparatus complies with Canadian ICES-003.

Cet appareil numérique de la classe B est conforme à la norme NMB-003 du

Canada

ISED RF Exposure Statement

This device complies with ISED RSS-I02 RF exposure limits set forth for an uncon environment. In order to avoid the possibility of exceeding the IC RSS-I02 RF exp limits, human proximity to the antenna shall not be less than 24 cm during normal environment.

Cet appareil est conforme aux limites d'exposition aux rayonnements de la CNR-102 définies pour un environnement non contrôlé. Afin d'évitet la possibilité de dépasser limites d'exposition aux fréquences radio de la CNR-102, la proximité humaine à l'antenne ne doit pas être inférieure à 24 cm pendant le fonctionnement normal.

The device is restricted to indoor use only when operating in the 5150 to 5250 MHz frequency range.

L'appareil est réservé à l'intérieur seulement lorsqu'il fonctionne dans la gamme de fréquences 5150 à 5250 MHz
