

# **IBM 7054 Mobile Tablet for Retail**

The IBM Wireless LAN Mini PCI Adapter installed within the IBM 7054 Mobile Tablet for Retail must be used in strict accordance with the following instructions. This product complies with the following radio frequency standards.

## **USA – Federal Communications Commission (FCC)**

### **Federal Communications Commission (FCC) Statement**

This equipment has been tested and found to comply with the limits for a Class A digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. Operation of this equipment in a residential area is likely to cause harmful interference in which case the user will be required to correct the interference at his own expense. IBM is not responsible for any radio or television interference caused by unauthorized changes or modifications to this equipment. Unauthorized changes or modifications could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

### **Exposure to Radio Frequency Energy**

The radiated output power of the Wireless LAN Mini-PCI Card authorized for use in the IBM 7054 Mobile Tablet for Retail is far below the FCC radio frequency exposure limits. Nevertheless, the IBM 7054 Mobile Tablet for Retail shall be used in such a manner that the potential for human contact during normal operations is minimized.

### **Interference Statement**

An improper installation or unauthorized use may cause harmful interference to radio communications. Also, any tampering with the internal antenna will void the FCC certification and your warranty.
