Re: Action requested - Certification under Part 15 of co-located portable transmitters
FCC ID: KBCIX260A750MPIBT
Grantee: ITRONIX, Corporation

Gentlemen:

On behalf of ITRONIX, Corporation we request Certification for the above referenced device which contains three internally integrated co-located transmitters. The IX260 is a ruggedized laptop PC which contain the following:

- 1.) PCS transmitter previously Certified by Sierra Wireless, Inc., FCC ID: NCNAC750 operating under Part 24E
- 2.) WLAN 802.11(b) previously Certified Intentional Radiator by CISCO Systems, Inc., FCC ID: LDK102042 under Part 15.247 for DTS devices.
- 3.) A Bluetooth Intentional Radiator previously Certified by Mitsumi, FCC ID: POOWML-C11XX under Part 15.247 DSS rules for FHSS.

For Item 1 a Certification application has been filed under Part 24, for Items 2 and 3 we have submitted EMC test reports covering radiated spurious and harmonic emissions for these transmitters and their individual antenna combinations. We will be referring to the original manufacturers Certification test data for some of the original exhibits where appropriate. These three OEM models would be considered "identical" to the originally approved device as defined by Part 2.908.

SAR measurement data has been submitted for this combination for multiple frequency exposure criteria.

We sincerely thank you for your time and consideration of this application. Please contact the undersigned for a prompt response should you require any additional information concerning this request for Certification.

Sincerely,

A handwritten signature in black ink that reads "Rod Munro".
