A. How to reconnect and operation when failed to reconnect?
When K11 connected with your mobile phone successfully at the first time, it will search and reconnect the paired device automatically when power on. If failed, you need to pair K11 again.

B. How to delete paired records?

In state-on mode(no talking), long press the MFB and Volume - Button for 5 seconds to clear the pairing record. The indicator Blue and Red LED is on for 1 second at the same time that means the pairing record has been cleared, and K11 will not connect the connected device. When there are various connection problem, try clearing the pairing record firstly.

C. What's the password for pairing?

Some connection devices require password for pairing, please try 0000 or 8888 or 1111 or 1234.

D. What devices could charge for the headphone?

Any car charger, power bank, PC etc which meet DC 3.7V, charging current more than 300mA could be charge for K11.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
