RE: FCC ID: EUN-T700

Attention: Ellis Wu

I have a few comments on this Application.

1. Please provide a separate block diagram for the transmitter being certified.
2. Please note that there is apparently more than ample room on the device to include the 2-condition statement required in 15.19. Please provide a sample label of this 2-condition statement as it is to appear on the device and also please provide a drawing showing where on the device the label is to be. Alternately, please explain how this device is justified in not having this label on the product itself. Please note that 15.19 gives size as the primary reason not to have the 2-condition statement on the device itself – it would appear that this is not the case and thus the 2-condition statement would have to be on the device not in the manual.
