Re: Extension of Agere Systems Nederland Wireless LAN product,
FCC ID: IMRWLPCE2411R

Dear Sir/Madam,

Please find enclosed Application Form for Equipment Authorization and corresponding documentation as per attached list, for the extension of the ref. grant because of following:

- additional antennae:

<u>model</u>	<u>gain</u>
- WLE-DA	5dBi
- WLE-NDR	2dBi

The antenna WLE-DA has been tested with a version of the PC Card granted but latter lightly changed, in our opinion as Permissive Change Class 1. The change is that pc-board between radio circuitry and integrated antennae has been made smaller and thus the total PC Card is shorter. For reference we send also test report on this shorter PC Card.

Sincerely yours,

Bert Vos, Regulatory Certifications

Encl. See attached table
