

FCC warning:

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

VOICE PROMPTS

JLab SIGNATURE
JLab C3™ signature sound with amplified vocals and bass

BALANCED
Even sound with no additional enhancements

BASS BOOST
Amplified bass and sub-bass

FITTING

Cush Fin™

Ear tip

Try all the optional Cush Fins and ear tips for best fit and proper seal.

Place in ear and rotate for best fit.

QUICK TIPS

- Fully dry off the earbuds before putting in the charging case to avoid any damage to the case. The earbuds are sweat/water resistant but the case is not.
- Either earbud can connect to your device and be used independently. Simply take out the earbud from charging case and it will auto connect.
- Choosing the correct ear tip makes a significant improvement in audio quality due to proper seal for the driver. Try all ear tips for best results.

TROUBLESHOOTING

No audio in one earbud or earbuds disconnected (Manual Reset)

- 1 Keep earbuds in the charging case and forget "JLab JBuds Air Pro" in your Bluetooth device settings.
- 2 Quick tap 7x on one earbud in charging case. Earbud blinks blue 4 times.
- 3 Quick tap 7x on other earbud in charging case. Earbud blinks blue 4 times.
- 4 Take both earbuds out to the charging case. One earbud will blink blue/white indicating ready to pair to your device.

JBUDSAIR PRO QUICK START GUIDE

ISED warning:

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:

- (1) This device may not cause interference.
- (2) This device must accept any interference, including interference that may cause undesired operation of the device.

L'émetteur/récepteur exempt de licence contenu dans le présent appareil est conforme aux CNR d'Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes :

- 1) L'appareil ne doit pas produire de brouillage;
- 2) L'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

SAR warning
IC Radiation Exposure Statement
This equipment complies with ISED radiation exposure limits set forth for an uncontrolled environment.
In case this equipment has to subject to IC SAR (Specific Absorption Rate) exposure test, this equipment is designed to meet the requirements for exposure to radio waves established by the ISED. These requirements set a SAR limit of 1.6 W/kg averaged over one gram of tissue. The highest SAR value reported under this standard during product certification for use when properly worn on the body or on the head, with no separation. To meet RF exposure guidelines and reduce exposure to RF energy during the operation, this equipment should be positioned at least this distance away from the head

CE
This product can be used in Europe without restrictions.
frequency bands:2402MHz-2480MHz, maximum output power:≤10dBm
