**Product:** AlarmPath Echo, Model: AP-4700  
**Company:** CRN Telemetry Devices Inc.

Dear Sir/Madam,

We recently submitted an application for the above-mentioned product, and discovered an incorrect description of one of the two antennas tested.

The incorrect antenna is described as a Half-wave rigid whip antenna; it should be a Quarter-wave rigid whip antenna. All other antenna parameters are unchanged.

The following documents that refer to the incorrect antenna have been revised and uploaded as "Revision" in the description field. The filename will also contain the word "Revised".

1. Test Reprt
2. External Photographs
3. MPE Evaluation data.
4. Cover Letter – Describing purpose of application

Please delete the original file previously uploaded corresponding to the revised file.

Thank you.

If you have any other queries, please do not hesitate to contact us.

Yours truly,

Tri M. Luu, P.Eng.  
VP – Engineering, Authorized Agent
