

Product Function Specification 1.Input: 12V/1.67A; 9V2A; 5V/2A 2.Output: 9V/1.67A; 9V/1.12A; 9V/0.83A; 5V/1A 3.Operating Temperature: 10 to 60 °C 4.Charging Power: 15W (Max); 10W; 7.5W (for iPhone X/8/8+) and 5W. 5.Charging Efficiency: 60% to 75% 6.Charging Distance: up to 6 mm 7.Over Temperature Protection: When charging, if thetemperature

goes over 60 °C, the device will automatically stop charging and the transmitter light will flash red(one second on/one second off). When the temperature drops to 40 °C, the device will automatically recharge 8. Over voltage protection: when the Device is working at 5W wireless charging, it will automatically stops as soon as the input voltage is over 6V; for 10W wireless, the Device stop charging when input is over 10V; For 15W wireless charging, the Device will stop when the input voltage is over 13V.

9. Support WPC Qi wireless charging protocol.

10. FOD function: red & blue lights blink.

Product Function-Instruction

1.Automatic induction gesture recognition, no need to manually switch the phone holder. Easy to operate by one hand 2.Built- in wireless charging transmitter module for mobile phone for wireless charging

Precautions A

- Please carefully handle your charger and accessories, the
- Please keep the equipment dry. Rain, moisture and various liquid may contain minerals that will corrode the circuit. If the equipment is wet, please dry the product as soon as possible or use a soft cloth to wipe it clean.
 losing the data stored due to demagnetization. —11—

- When charging, please select the regular 5V/2A, 9V/2A chargers. Do not use any damaged chargers.
- Please do not attempt to charge the equipment with battery exposed or case broken, and do not charge the equipment that are incompatible with this product.

• Do not attempt to open the equipment, unauthorized dis-

- Do not store the equipment in a cold place. Otherwise, if temperature rises to normal temperature, moisture will pent up inside it and damage the electric appliance.
- assembly or modification will damage equipment or related wireless charging functions.
- Do not throw, tap or shake the equipment; rough handling of the equipment will damage the internal circuit board and the mechanical structure.
- Use the clean and moist soft cloth to clean the surface of the equipment. Do not use or store the equipment in dusty or dirty places.
- Some components of this product are magnetic and metal materials may be adsorbed onto this product. Please do not use bank cards, credit cards or any other items with magnetic near the product so as to avoid losing the data stored due to demagnetization.

Dashboard Holder:

Dashboard Holder is with an extendable mechanic arm, which allows the phone can be placed at the optimal charging position, achieving the maximum charging electronic current.

1. When using this product, please make sure that the product is connected to the power. To achieve fast charging, QC2.0/3.0 car charger is required.
2. In case this product freezes, touch the Power Button area to

FCC Warning:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

The device has been evaluated to meet general RF exposure requirement.
