Office of Engineering Technology  
Equipment Authorization Division

**Subject: Product Contains an FCC Approved Radio Modem**

To Whom It May Concern:

The Omni 3600C Wireless Handheld Point of Sale Terminal incorporates an RF module transmitting in the frequency range of 824 - 849MHz that received previous certification under FCC ID: P4M-DTSS\_800. The radio is not modified or adjusted in VeriFone's manufacturing process from the condition sent from the radio's original manufacture.

Sincerely,

Technical Staff  
Senior EMC Engineer  
William Morse NCE
