Functional component

Specifications

Product name: Wireless car charger holder
Model name:X1PRO
Input: 5V/2A MAX, 9V/2A MAX
Output: 15W(compatible with 10W,7.5W,5W)
Induction distance:≤6mm
Applicable mobile phone size: 4.7-6.9 inch mobile phone

Direction for use

1. Assemble the product and any accessory through a ball head nut and tighten it (compatible with other ball head diameter 17mm accessories), and fix it in an ideal position. Connect the product to the QC3.0 car charger (optional) with the data cable, and insert to the cigarette lighter to get electricity.
2. After the product is powered on, the indicator on the both side will light, and the left and right telescopic arms will automatically open after 5 seconds to wait for the mobile phone to be placed; if the product does not turn on red after power on (not turn on, or flash) All indicate that there is a problem with the product, please stop using it and return it to the seller for processing.
3. In order to ensure the efficiency and stability of charging, adjust the bottom bracket to the lowest position before putting on the Samsung Galaxy Z Flip phone, so that the coil of the phone can be perfectly aligned with the lower charging coil of the holder; Other mobile phones with wireless charging function can also use this stand to charge, try to make the back center position be aligned with the circle of the bracket panel as much as possible. Mobile phones of different sizes should correspond to different bracket gears. The best distance for wireless charging is within 3-5mm and cannot penetrate metal, so avoid using metallic or too thick (more than 3mm) mobile phone cases, so as to ensure the fast wireless charging.
4. After placing the phone, the left and right clamping arms will automatically clamp the phone. If the phone supports Qi wireless charging protocol, the product will start wireless charging at the same time, and the indicator light will flash slowly when the product wireless charging starts; if the phone does not support wireless charging, the indicator light will flash quickly for 5 seconds and then the light goes out. The maximum charging power of this product is 15W, and the charging efficiency will vary according to the charging environment and mobile phone.

Air vent mount

Adjust the position of the top piece of the air outlet and the rotatable clip assembly according to the position of the air outlet blade; insert the blade and select the lock switch position according to the thickness of the blade; suitable for one-key locking of the air outlet of most cars. Silicone touches the car, tighter and fits better to protect the car from scratches.

FCC Warning

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC WPT exposure statement:

The equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance between 20cm the radiator your body.

Precautions
