RE: LETTER OF TO CONFIRM NO TUNE-UP PROCEDURE REQUIRED

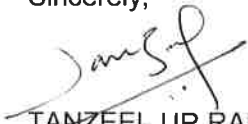

SkinPen Precision Model: 100  
SkinPen Precision Charger Model: 101

To Whom It May Concern:

This letter confirms that there is no tune-up procedure involved in the field or at the factory. The transmitter chip P/N-BQ5105XB and the receiver chip P/N-BQ500212A smartly controls the charging coils and communicates, deliver the power accordingly. The power balancing communication between the transmitter and receiver (Qi compliant).

From the receiver chip BQ500212A data sheet, the part is RSS-210 certified, FCC part 15, FCC part 18 compliant (Class B digital device).

Sincerely,

TANZEEL UR RAHMAN

Sr Systems Engineer
