Federal Communications Commission Authorization and Evaluation Division

## Declaration Letter for Indoor Access Points

We, <u>Linksys USA</u>, <u>Inc.</u>, attest that this device under FCC ID: 2AYRA-08321 complies with device protocol requirements and operational restrictions for Indoor Access Point Devices.

- a) This indoor access point to control the associated client/subordinate devices, allowing it to transmit without receiving an enabling signal. This mode can select a channel and initiate a network by sending enabling signals to client devices and subordinate devices.
- b) This Indoor Access Point operates in the 5.850-5.895 GHz band. It is supplied power from a wired connection, has an integrated antenna, is not battery-powered, and does not have a weatherized enclosure.
- c) We acknowledge this device is subject to and in full compliance with the device restrictions listed below. All users are notified of these restrictions through the user manual.
  - Access Point operating in the 5.850-5.895 GHz band shall be supplied power from a wired connection, has an integrated antenna, is not battery powered, and does not have a weatherized enclosure.
  - A statement in a conspicuous location on the device and the user's manual: "FCC regulations restrict the operation of this device to indoor use only." & Section 15.19 Statement (if not on the device)

If you should have any questions regarding this declaration, please do not hesitate to contact us, thank you!

Sincerely yours,

Insung Kim / Senior Director of Product Engineering
