**Overview**

This application is for a Class 2 Permissive Change of the previously certified Bluetooth radio FCC ID: EHABTM210. There have been no hardware or software changes to FCC ID: EHABTM210. Intermec is seeking authorization for new RF exposure conditions. FCC ID: EHABTM210 will be installed in Intermec's 730 handheld computer. Alternately, it can be co-located with the previously certified module FCC ID: EHADRCB, in the 730 handheld computer. Both radios operate in the 2400-2483.5 MHz band.

**Recommendation**

All items have been resolved and completed to my satisfaction; therefore I recommend this application for approval.
