Solder Board-Component View 4	 A photograph showing a rectangular green solder mask component. The component is positioned horizontally against a blue textured background. A black ruler with white markings is placed below the component, showing measurements in millimeters. The ruler has markings from 10 to 80 mm on the left side and 10 to 100 mm on the right side. The component is approximately 80 mm long and 10 mm wide.
Solder Board-Component View 5	 A photograph showing a green printed circuit board (PCB) component. The component is positioned horizontally against a blue textured background. A black ruler with white markings is placed below the component, showing measurements in millimeters. The ruler has markings from 10 to 50 mm on the left side and 10 to 60 mm on the right side. The component is approximately 50 mm long and 10 mm wide. It features various electronic components, including a central chip, resistors, and capacitors. There are also two gold-colored connectors on the top edge.

Solder Board-Component View 6	 A photograph of a small green printed circuit board (PCB) component, labeled 'DYCS-RS232-V1.1', mounted on a blue textured surface. The component is rectangular with several gold-plated pins and solder joints. It is positioned next to a black ruler with white markings, showing dimensions in millimeters. The ruler is oriented vertically, with the component's length corresponding to the 10 mm mark.
Solder Board-Component View 7	 A photograph of a larger green printed circuit board (PCB) component, labeled 'DYCS-RS232-V1.1', mounted on a blue textured surface. The component is rectangular with a complex layout of gold-plated pins and solder joints. It is positioned next to a black ruler with white markings, showing dimensions in millimeters. The ruler is oriented vertically, with the component's length corresponding to the 100 mm mark.

Solder Board-Component View 8	 A photograph of a green printed circuit board (PCB) component, labeled 'Solder Board-Component View 8'. The component is rectangular and features various electronic components, including a central microcontroller, several resistors, and a small connector on the left. It is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters, with the component spanning approximately 100 mm in length and 20 mm in width. The component has a white label with a 'Pb' symbol and a triangle, indicating it is lead-free.
Solder Board-Component View 9	 A photograph of a green printed circuit board (PCB) component, labeled 'Solder Board-Component View 9'. The component is smaller and features a prominent circular lens or sensor in the center. It is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters, with the component spanning approximately 20 mm in length and 10 mm in width.
