

Statement

The Itronix GoBook (IX250) is a ruggedized laptop with a built in AC750 GSM /GPRS PCMCIA card. The card is not accessible for the user and connected to an external antenna. This antenna guarantees due to the structure more than 20 cm distance to the user.

The laptop comes with a special cradle for the use in vehicles. In this case the built in switch, switches automatically the antenna to an external car antenna.
