Press and Hold to Lower Volume

Press 1x to skip to Previous Track Press and Hold to Raise Volume

Press 1x to skip to Next Track

In wireless mode, you can also control music (volume and track selection) directly from your smartphone & it will be transferred to the FM transmitter. Device must be paired with the FM transmitter.

Change MODES: Press and HOLD to Change Modes
The modes are BT/USB/TF/FM

USB/TF mode cannot be activated unless the USB disk/TF card is connected to the FM transmitter.

Note: It needs two long press and the interval between two long press should be less than 5s, then the transmission frequency is flashing on the FM Transmitter's display screen, and then press button and/or to make adjustment, the incremental step is 0.1MHz.

Car charging function:

- 1. High-current vehicle charging interface can provide output DC5V 3.1A Max for multimedia devices (mobile phones, tablets, etc).
- 2. USB data interface can also be used as a charging interface when using a dedicated charging cable (without data transmission function).

Power off memory operation:

When the power is turned off at random in USB/TF mode, the FM transmitter remembers the track number of the song just played.

SPECIFICATIONS

FM Frequency Range	e: 87.5-108 MHz	Music Format:	MP3
Product Input:	DC12-24V	Capacity (USB Key):	32GB max
Charging Output:	DC 5V 3.1A Max	Capacity (Micro SD Card)	: 32GB max
		Operating Range:	≤15ft (5m)

EXPAND

vour car's radio features with added HANDS-ERFE CALLING WIRELESS MUSIC & CHARGING PORTS

PLUG INTO YOUR CAR'S CIGARETTE

LIGHTER OR OTHER 12V OUTLET

SETTING UP YOUR TRANSMITTER

- 1. Insert the player into the car cigarette lighter, the screen of the player will be light up, and the start up state will be displayed, and at the same time, it will enter the automatic play.
- 2. Set the transmitting frequency of the player and try to avoid the radio frequency with strong local FM
- 3. Turn on the car radio and check the car radio frequency, so that the transmission frequency of the car MP3 Bluetooth player can be adjusted to be consistent with the car radio frequency (Tips: when adjusting the car radio frequency, you should adopt manual frequency modulation, adjust the car radio frequency to a blank frequency (that is, there is no radio frequency), and then adjust the car Bluetooth MP3 transmission frequency to be consistent with the car radio frequency, so that the sound quality is the best, and the cleaner the car radio frequency, the better the sound quality),
