View 1****EUT Housing and Board
View 2**

Solder Board-Component View 1	 A photograph of a yellow printed circuit board (PCB) component, labeled 'REV:1.0 9A40', mounted on a blue surface. The component features a gold-plated SMA connector on the left, a central white plastic component with two silver pins, and a black SMA connector on the right. A vertical ruler on the left and a horizontal ruler at the bottom provide scale in millimeters and centimeters.
Solder Board-Component View 2	 A photograph of the same yellow PCB component from a different angle, showing the underside. It features a green solder mask, various surface components, and silver solder joints. A vertical ruler on the left and a horizontal ruler at the bottom provide scale in millimeters and centimeters.

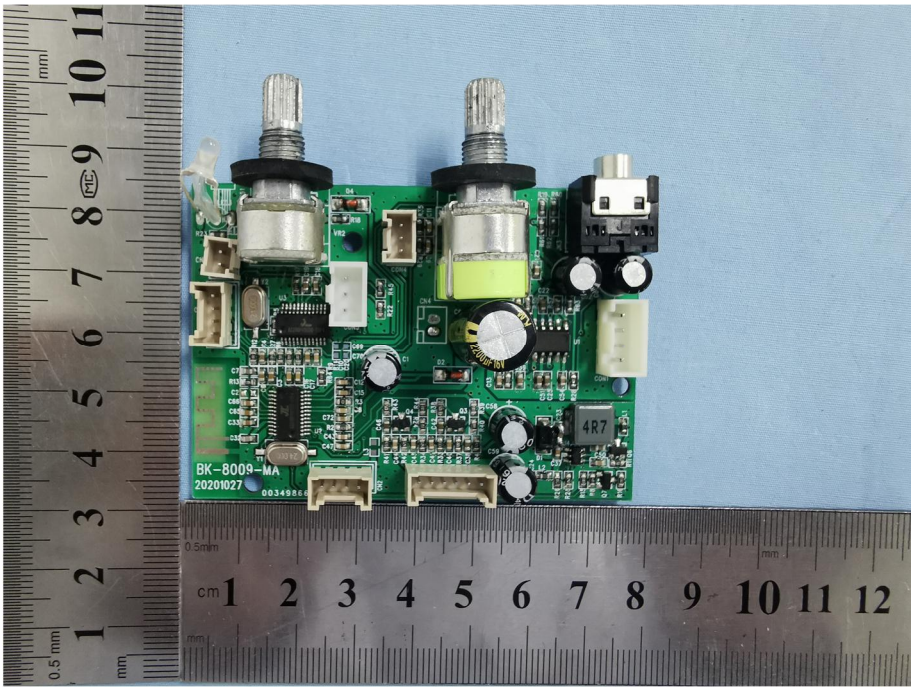

Solder Board-Component View 3	 A photograph of a yellow printed circuit board (PCB) component, labeled TYD-20-SW2 with a date of 2020.03.02. The board features a white connector at the bottom, a small black switch labeled SW1, and various electronic components. It is positioned next to a metal ruler for scale, showing dimensions in centimeters and millimeters.
Solder Board-Component View 4	 A photograph of a green printed circuit board (PCB) component, showing the underside with numerous solder joints and electronic components. It is positioned next to a metal ruler for scale, showing dimensions in centimeters and millimeters.

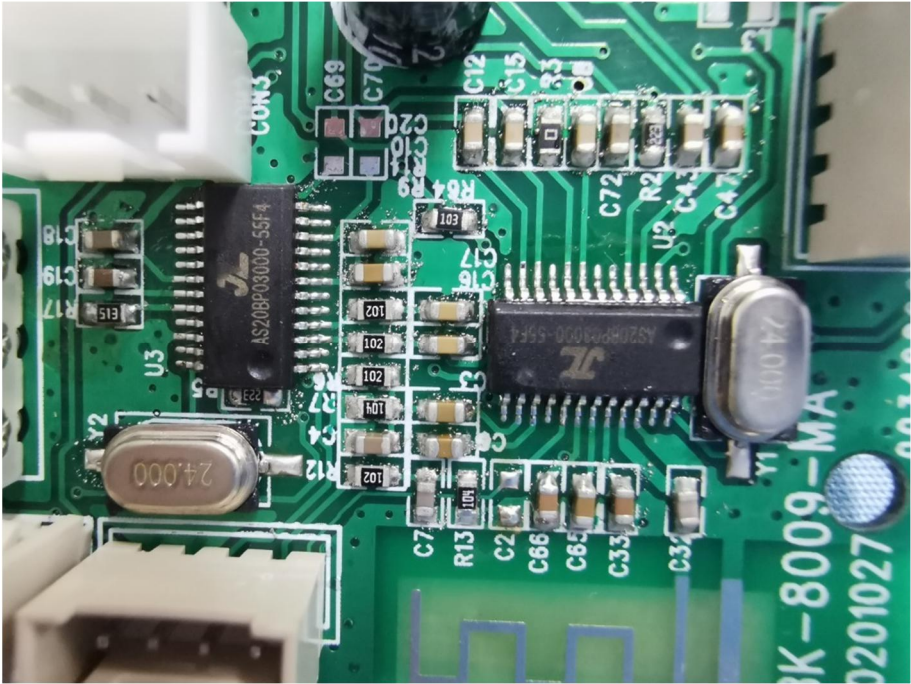

Solder Board-Component View 5	 A photograph of a small electronic component, likely a switch, mounted on a yellow PCB. The component is positioned between two rulers for scale. The vertical ruler on the left shows markings from 1 to 7 mm. The horizontal ruler at the bottom shows markings from 1 to 7 cm. The component has a black plastic body with two circular contacts and a small white label with text including 'TYD-20-SW1', '2019.02.16', '0.2', '12V', and 'J4'.
Solder Board-Component View 6	 A photograph of a small electronic component, likely a switch, mounted on a green PCB. The component is positioned between two rulers for scale. The vertical ruler on the left shows markings from 1 to 7 mm. The horizontal ruler at the bottom shows markings from 1 to 7 cm. The component has a green PCB with two circular contacts and a small black plastic body.
