

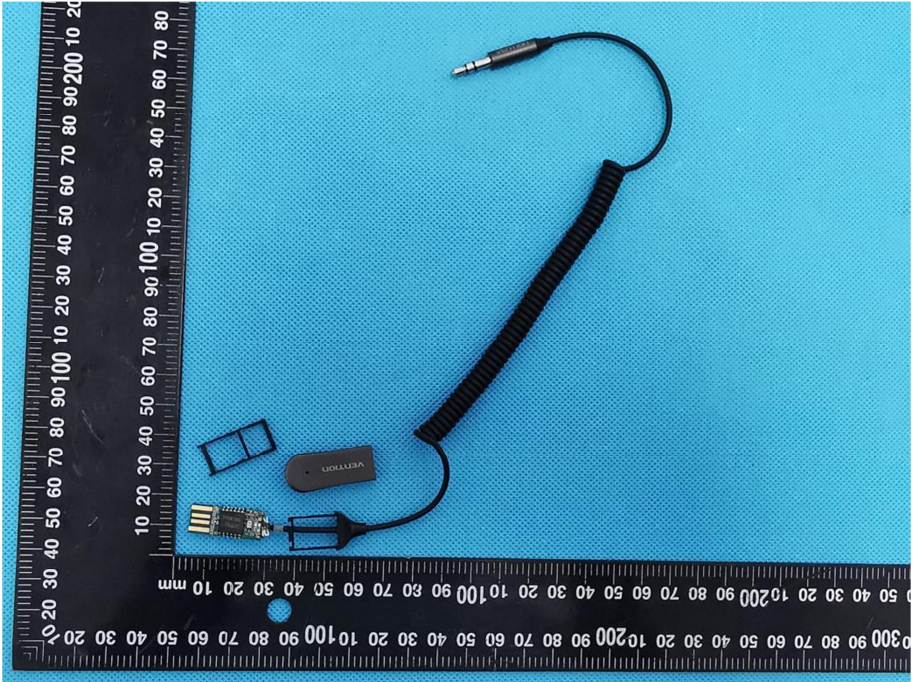

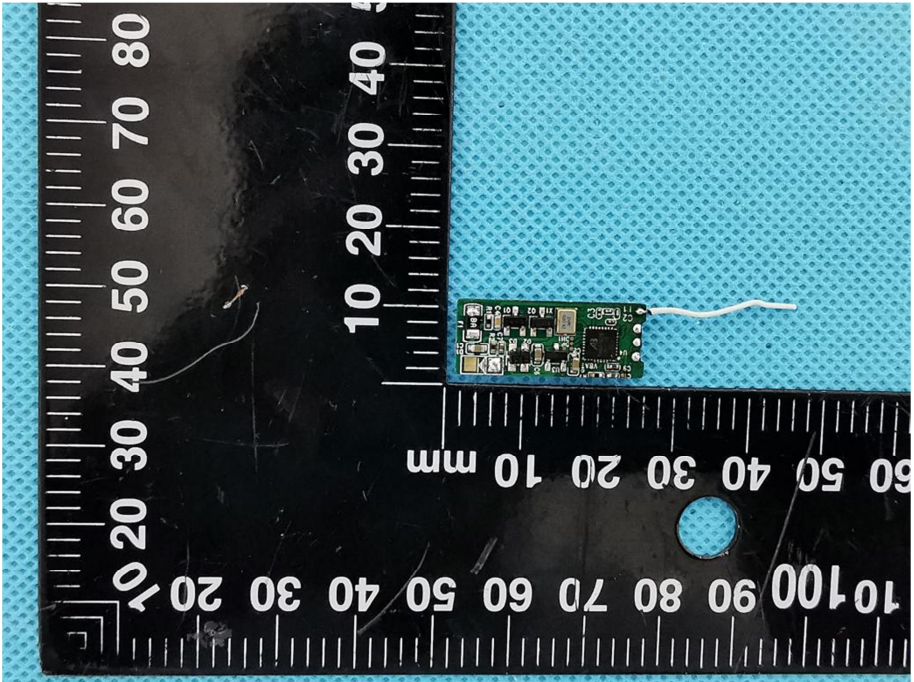

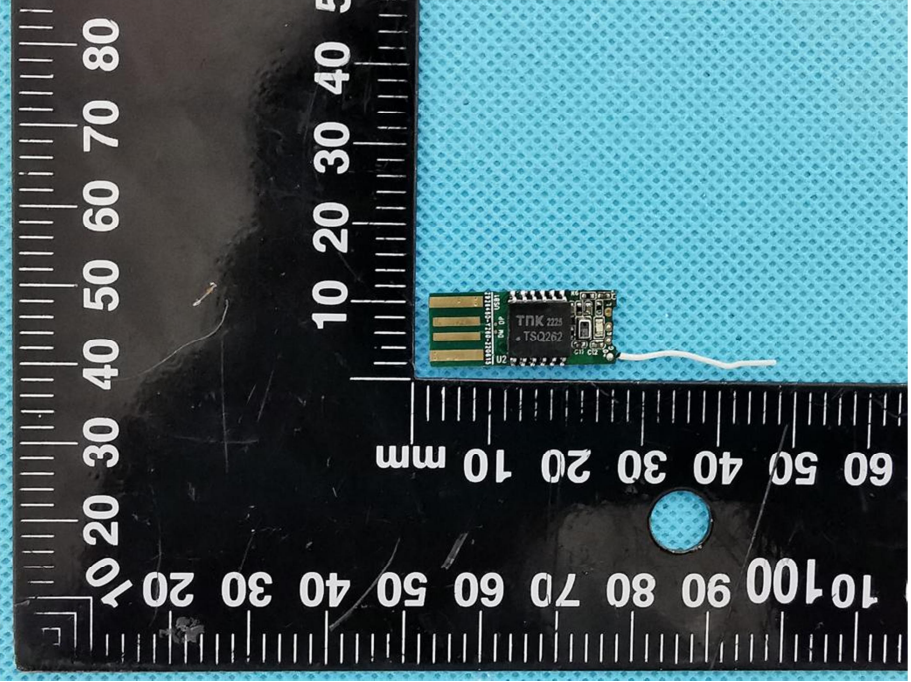

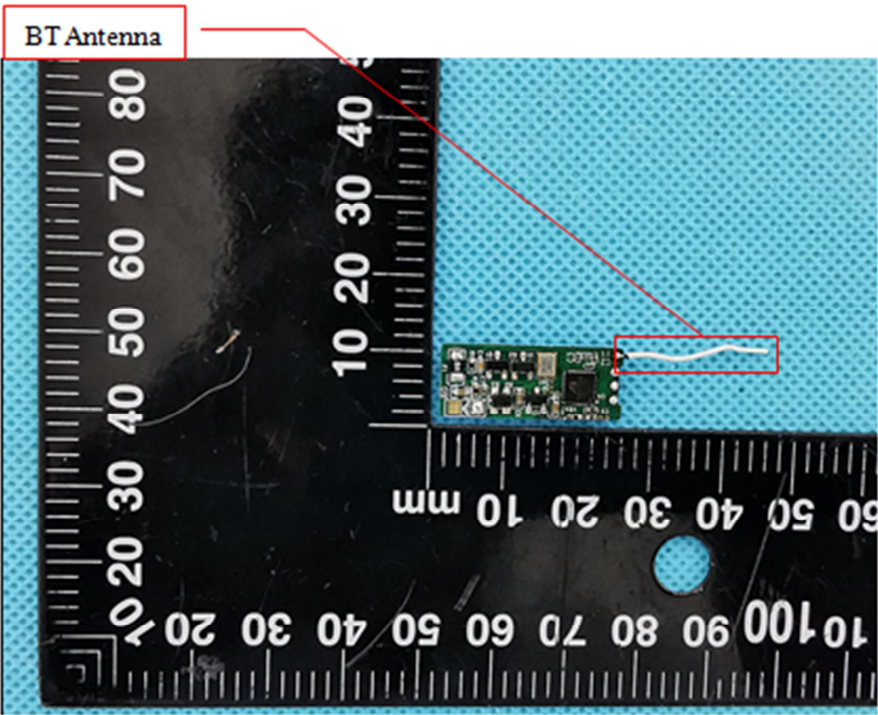

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

EUT Housing and Board View 1	 A photograph showing the external components of the EUT. A black coiled cable with a silver audio jack is connected to a small black rectangular component labeled 'VERTION'. Next to it is a small black USB dongle. A black ruler with white markings is placed vertically and horizontally for scale. The background is a blue textured surface.
Solder Board-Component View 1	 A close-up photograph of a small green printed circuit board (PCB) component. The component is mounted on a black surface, and a thin white wire is visible. A black ruler with white markings is placed vertically and horizontally for scale. The background is a blue textured surface.

Solder Board-Component View 2	 A photograph showing a small electronic component, likely a BT antenna, soldered onto a blue PCB. The component is positioned near a black ruler with white markings. The ruler shows measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm). The component is labeled 'TINK 222' and 'TSQ262'. A white wire is visible extending from the component.
Antenna View	 A photograph showing the same BT antenna component from a different perspective. A red box highlights the antenna structure, and a red line points to it from the label 'BT Antenna' in the top left corner. The component is labeled 'TINK 222' and 'TSQ262'. A white wire is visible extending from the component. The ruler and background are the same as in the previous image.
