USB-A Power Bank Function

This speaker carries a USB charge out function that will automatically detect your device and begin to charge it when the charging cable is plugged into the USB-A port. The output power is up to DC 5V/1A. In order to maintain stable music playing performance, it's not recommended to use the music and power bank function at the same time.

Aux-in Mode
Simply connect the speaker with your non-Bluetooth device via the 3.5 mm audio jack cable.
Note: After plugging in an audio cable, the speaker will automatically switch to Aux-in mode.

TF Card Slot Mode
The speaker will play the music from your TF/Micro SD card when plugging the card into the slot. The maximum supported memory is 64 GB.

USB Flash Drive Mode

The speaker will play the music from your USB flash drive when plugging the USB into the USB-A port. The maximum supported memory is 64 GB.

Auto Power Off
The speaker will power off automatically after 1 hour if it does not pair with any device through Bluetooth. When in low battery, the speaker will power off automatically as well.

FCC StatementThis device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions: 1) this device may not cause harmful interference, and 2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

-Reorient or relocate the receiving antenna.

-Increase the separation between the equipment and receiver.

-Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

-Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

RF Warning Statement:
The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
