Dear Sir/Madam:

Please make the following corrections in the Form 731 that was submitted on January 25, 2000.

1. Frequency range in MHz currently reads 2142-2462.5. **It should be 2408-2467.**
2. Emission designator currently reads 6M40G1D. **It should be 9M10G1D.**

Additionally, please note that an updated test report with test data has been uploaded as exhibit description "Updated test report with test data". Please delete the previously submitted test report.

Sincerely,

David Chenomordik  
EMC Site Manager
