

Report No.: 2405V68456EA-A1

3.7 Radio frequency exposure

Test Date:	2024-07-31	Test By:	Lirou Li
Environment condition:	Temperature: 23.6°C; Relative Humidity:64%; ATM Pressure: 100.7kPa		essure: 100.7kPa

Radiation leakage was measured in the as-received condition with the oven door closed using a microwave leakage meter.

A 275mL water load was placed in the center of the oven and the oven was operated at maximum output power.

There was no microwave leakage exceeding a power level of $\underline{\textbf{0.17}}$ mW/cm² observed at any point 5 cm or more from the external surface of the oven.

A maximum of 1.0mW/cm² is allowed in accordance with the applicable Federal Standards. Hence, microwave leakage in the as-received condition with the oven door closed was below the maximum allowed.
