LoRa Sonr Echo Box w/Antenna INSTRUCTIONS

Installation Instructions

1. ON/OFF Button
Switch between "ALARM" mode and "SLEEP" mode. In ALARM mode, Echo Box responds directly to the incoming status, i.e. echo audio sensor to SLEEP and alarm to ALARM. In SLEEP mode, the box sleeps always.
- Switch to left side for SLEEP + ALARM.
- Switch to right side for SLEEP only.

2. LORA MODE Select
Echo Box could either work in "RECEIVER" mode or "EXTENDER" mode. In EXTENDER mode, Echo Box directly and receiving SLEEP or WAKEUP devices and echo with longer or shorter accordingly. In addition, message will be transmitted via the SubG to LORA if it is available.
Any LORA RECEIVER working under the same channel setting will detect and respond accordingly. Two Select LORA (TRANS) button for the channel setting:
- Switch to right side for RECEIVER mode.
- Switch to left side for EXTENDER mode.

3. RESET Button
RESET button has dual functions:
During audio alarm, press/release the button stop the audio alarm.
During standby, press/release the button indicate the current RECEIVER/EXTENDER mode. If Echo Box is in RECEIVER mode, the LIGHT flashes. If EXTENDER mode, the LIGHT turns on continuously.
4. LIGHT
The LIGHT indicates the following information:
- Indicates RECEIVER/EXTENDER mode as described in "RESET Button".
- Flashes to audio alarm and alarm.
- If flashes once every 5 seconds when battery is low.

5. LORA CHANNEL Select
ALORA SubG Box working in EXTENDER mode could only communicate to a LORA Echo Box working in RECEIVER if and only they are working under the same CHANNEL. There is a total of 32 channels to select from, ensure to select the same channel for those boxes you wish to work together. The channels are identified as "T" and "R".

6. SLEEP/ALARM Select
Audio echo of SLEEP and ALARM consists of a two-tone melody. You could select different combinations of melodies from the channel control, there is a total of 16 different melody options.

7. SERVICE MODE Select
This option cannot switch in for technical use, make sure it is in OFF position.

CAUTION:

1. Do not crush or puncture the battery.

2. Keep the battery away from fire.

3. Do not leave the battery in an extremely high-temperature environment or an extremely low air pressure environment.

4. Do not put the battery in trash that is disposed of in landfills. When disposing of the battery, comply with local laws or regulations.

Installation Instructions

FCC Statement
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

-Reorient or relocate the receiving antenna.
-Increase the separation between the equipment and receiver.
-Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
-Consult the dealer or an experienced radio/TV technician for help.

To assure continued compliance, any changes or modifications not expressly approved by the party.
Responsible for compliance could void the user's authority to operate this equipment. (Example- use only shielded interface cables when connecting to computer or peripheral devices).

This equipment complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and
(2) This device must accept any interference received, including interference that may cause undesired operation.

FCC Radiation Exposure Statement:
The equipment complies with FCC Radiation exposure limits set forth for uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.
