3.2.3 Certificates

Certificates are used by some applications for establishing trust and for secure communications.

Certificates are signed and issued by certificate authorities and are valid for a prescribed period of time. Windows CE manages multiple certificate stores.

ICON	ITEM & FUNCTION
	• “Store” Tab (Figure 3-31) :
	✓ In the Stores tab, select the certificate store you wish to view or modify from the drop-down list (Figure 3-32). ✓ The “Trusted Authorities” store lists the top-level certificates for authorities you trust.(Figure 3-33 , Figure 3-34) ✓ The “My Certificates” store contains your personal certificates, which you use to identify yourself. ✓ Intermediate certificate authorities that help establish a chain of trust are stored in the “Other Authorities” store.
	• “Store” Tab : ✓ To add a certificate or associated private key to the selected store, select “Import” (Figure 3-35). ✓ To view more details of the selected certificate, such as the expanded name or expiration date, choose “View”. ✓ To delete the selected certificate from the store, choose “Remove”.
