SKG Health Technologies Co., Ltd.

23/508 "

FCC ID: 2AYVT-SKGBLEWS01 MODULAR APPROVAL LETTER

Modular Approval Requirement	Yes	No
i) The radio elements of the modular transmitter must have	V N. 220	
heir own shielding. The physical crystal and tuning capacitors	28 47.47	
may be located external to the shielded radio elements.	3193:00	
ii) The modular transmitter must have buffered		
nodulation/data inputs (if such inputs are provided) to ensure		3 30
hat the module will comply with part		
.5 requirements under conditions of excessive data rates or		-14-
over-modulation.		
iii) The modular transmitter must have its own power supply	1	
egulation.		
iv) The modular transmitter must comply with the antenna	1	
nd transmission system requirements of §§ 15.203,		
5.204(b) and 15.204(c) The antenna must either be		
permanently attached or employ a "unique" antenna coupler		
at all connections between the module and the antenna,		
ncluding the cable). The "professional installation" provision of		
15.203 is not applicable to modules but can apply to limited		1 2
nodular		
pprovals under paragraph (b) of this section.		
v) The modular transmitter must be tested in a stand-alone	$\sqrt{}$	2245988 THE 24
onfiguration		
vi) The modular transmitter must be equipped with either a	1	29
permanently affixed label or must be capable of electronically		-078 Marz
isplaying its FCC identification number.		3237
vii) The modular transmitter must comply with any specific	√	
ules or operating requirements that ordinarily apply to a		
omplete transmitter and the manufacturer must provide		
dequate instructions along with the module to explain any		
uch requirements. A copy of these instructions must be		1 2 2
ncluded in the application for equipment authorization.	,	
	√	
viii) The modular transmitter must comply with any applicable RF exposure requirements in its final configuration.
