Solder Board-Component View 1	 A photograph of a green printed circuit board (PCB) component, labeled PGD798B VL4, placed on a blue textured surface. The component is positioned next to a black L-shaped ruler with white markings in millimeters. The ruler shows dimensions of approximately 100mm by 100mm. The component features various electronic components, including a large integrated circuit, several resistors, and capacitors. The text "PGD798B VL4" is printed on the board.
Solder Board-Component View 2	 A photograph of the same green PCB component from a different angle, showing the underside. It is placed on the same blue textured surface next to the same black L-shaped ruler. The underside of the component shows a large integrated circuit, various solder joints, and some surface markings. The ruler indicates dimensions of approximately 100mm by 100mm.

Solder Board-Component View 3	 A photograph of a black printed circuit board (PCB) with various electronic components, including a green microcontroller unit, a yellow connector, and a black cable. The board is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm).
Solder Board-Component View 4	 A photograph of a black printed circuit board (PCB) with various electronic components, including a green microcontroller unit, a yellow connector, and a black cable. The board is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm).
