

Antenna Specification

Antenna Size Photo
ER-3UD-S

Company: **GUANGDONG WANJU LIGHTING TECHNOLOGY CO., LTD**

Address: **No. 59 Lechuang Road, Lianfeng Community, Xiaolan Town, Zhongshan City, Guangdong Province, China**

Antenna Model: F20240923

Antenna gain: 1 dbi

The top photograph shows the reverse side of the PCB. It features several integrated circuits (ICs) labeled ATmega16, ATmega16L, and ATmega16C. There are also various passive components like resistors and capacitors. A yellow arrow labeled 'ANT' points to a location on the right side of the board. The bottom photograph shows the front side of the PCB. It features a large IC labeled ATmega16, ATmega16L, and ATmega16C. There are also various passive components like resistors and capacitors. A yellow arrow labeled 'ANT' points to a location on the right side of the board.
