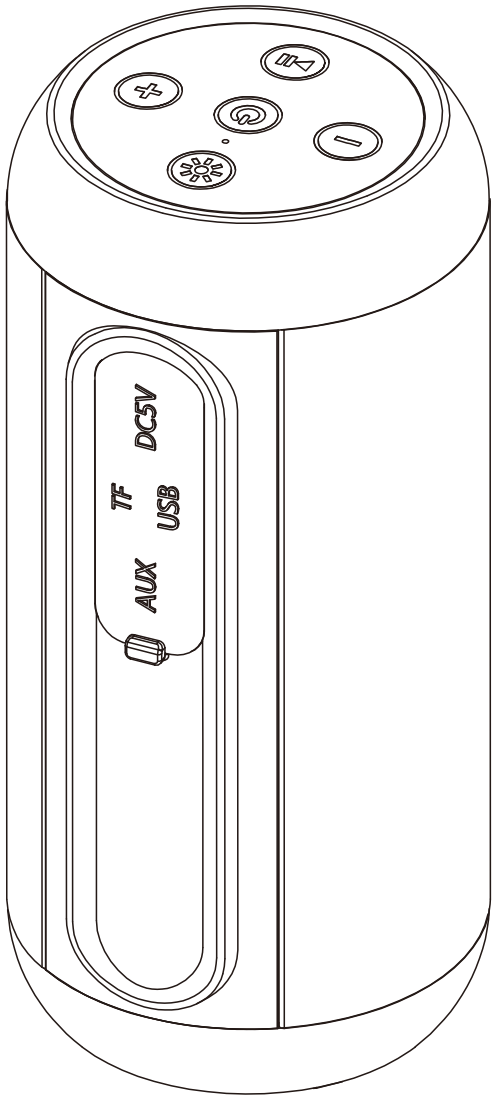
WIRELESS SPEAKER

USER MANUAL

BT528



Please read user guide carefully before use.

PRODUCT SPECIFICATIONS:

- Model: BT528
- Bluetooth Version: 5.1
- Support: L2CAP / A2DP / AVRCP, receive AUDIO signal and control the AUDIO device.
- Supports HSP / HFP (hands-free), built in microphone for hands-free calls
- Connection Distance: 10M approx
- SNR: ≥90dB
- Battery: 2400mAh 3.7V 8.88Wh
- Play Time (100% volume):4H
- Charging Time: 4-5H
- Speaker Size: Φ45mm*2
- Power: 4Ω/5W*2
- Frequency:120HZ-20KHZ
- Input: 5V⎓2A
- Size: Φ73x156mm
- Weight: 480g

PRODUCT FEATURES:

1. Advanced bluetooth chip and circuit design techniques, compatible with all wireless devices.

2. With HI-FI speaker, to ensure clear and bright sound.

3.Support TF card and USB card, play audio with MP3 mode.

4.The distance range is about 10 meters.

5.With built-in AUX line, you can directly connect the external devices, such as, tablet PC/TV/cell phone.

The warranty period for this product is 3 months after purchase.

If you have any questions, please contact a customer service representative for assistance.

FCC Warning

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and
(2) this device must accept any interference received, including interference that may cause undesired operation.
Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
