

Test data, continued

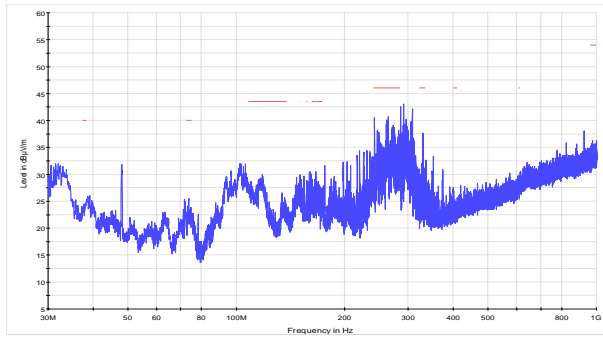

Figure 8.7-26: Radiated spurious emissions below 1 GHz for EDR2 modulation low channel

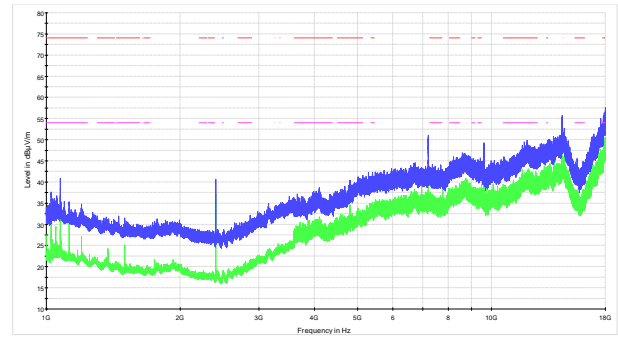

Figure 8.7-27: Radiated spurious emissions within 1–18 GHz for EDR2 modulation low channel

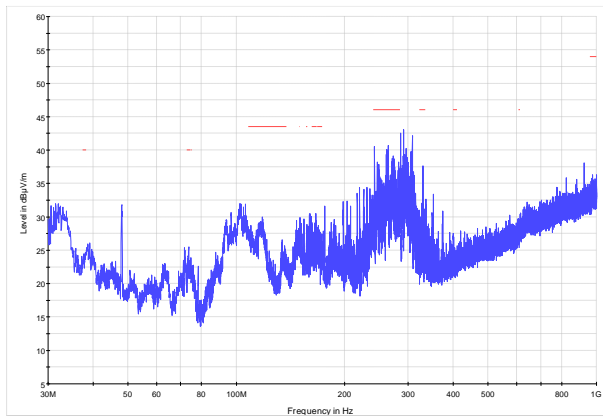

Figure 8.7-28: Radiated spurious emissions below 1 GHz for EDR2 modulation Mid channel

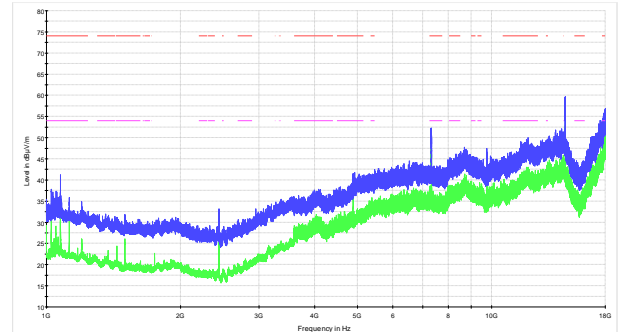

Figure 8.7-29: Radiated spurious emissions within 1–18 GHz for EDR2 modulation Mid channel

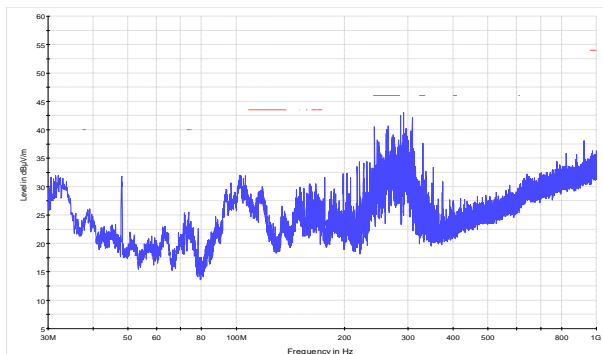

Figure 8.7-30: Radiated spurious emissions below 1 GHz for EDR2 modulation Mid channel

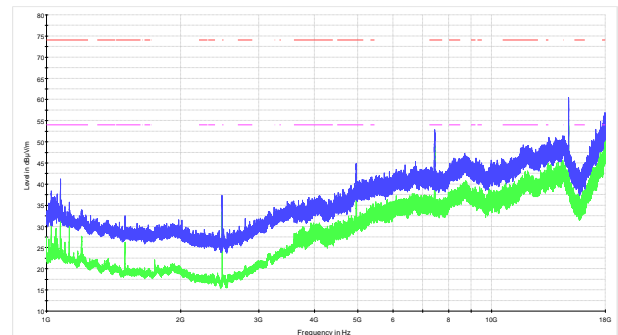

Figure 8.7-31: Radiated spurious emissions within 1–18 GHz for EDR2 modulation Mid channel

Note: Spectrum was investigated up to 25 GHz, no emission related to RF transmission was detected within 6 dB below the limit above 18 GHz
