

The screenshot shows the 'My Profile' page of the 'My Study' app. The page is divided into two main sections: 'My Profile' and 'My Study'. The 'My Profile' section includes a profile picture, name 'John Doe', email 'john.doe@example.com', and a bio. The 'My Study' section includes a list of subjects, a progress bar, and a list of study materials. The 'My Study' section is currently active, showing a list of subjects and a progress bar.

Figure 10-10 shows four screenshots of the Windows 7 Start menu. (a) The default Start menu with 'All Programs' and 'Recent Programs' lists. (b) The Start menu with the 'All Programs' list expanded, showing a hierarchical view of installed applications. (c) The Start menu with the 'Recent Programs' list expanded, showing a list of recently used applications. (d) The Start menu with the 'All Programs' list expanded and 'Computer' selected, showing the contents of the 'Computer' folder.

Figure 1 displays a sequence of 16 screenshots illustrating a user's search process for a car. The screenshots are arranged in a 4x4 grid, showing the progression from initial search criteria to final results. The first row shows the initial search criteria: 'What car do you want to buy?' with options for 'New', 'Used', and 'Lease'. The second row shows the search results for 'New' cars, with a list of vehicles including a '2014 Ford Focus' and a '2014 Ford Focus SE'. The third row shows the search results for 'Used' cars, with a list of vehicles including a '2014 Ford Focus' and a '2014 Ford Focus SE'. The fourth row shows the search results for 'Lease' cars, with a list of vehicles including a '2014 Ford Focus' and a '2014 Ford Focus SE'.

The screenshot shows the 'Ecosystem mobile app' interface. At the top, there's a header with the app name 'Ecosystem mobile app' and a version number '1.0.0'. Below the header, there's a 'My Account' section with a profile icon, a 'My Account' button, and a 'My Account' button. Below this, there's a 'My Account' section with a 'My Account' button, a 'My Account' button, and a 'My Account' button. The app also displays a 'My Account' section with a 'My Account' button, a 'My Account' button, and a 'My Account' button. The app is titled 'Ecosystem mobile app' and has a version number '1.0.0'.

The collage consists of six screenshots of the Windows 10 Settings application:

- Top Left:** The 'Network' settings page, showing the 'Ethernet' adapter with a status of 'Connected' and a speed of '1.0 Gbps'.
- Top Right:** The 'Storage' settings page, displaying a list of drives and their usage. The 'C:' drive is highlighted, showing it has 144 GB of space, with 114 GB used and 30 GB free.
- Middle Left:** The 'System' settings page, showing the 'About' section with details like 'Device name: Windows', 'Edition: Windows 10 Home', and 'Version: 1709'.
- Middle Right:** The 'System' settings page, showing the 'Display' section with a resolution of '1920 x 1080' and a refresh rate of '60 Hz'.
- Bottom Left:** The 'Windows Update' settings page, showing the 'Check for updates' button and the 'Update history' link.
- Bottom Right:** The 'Windows Update' settings page, showing the 'Check for updates' button and the 'Update history' link.

Figure 1 illustrates the steps to enable Developer Options on an Android phone. The sequence of screenshots shows the user navigating to 'About Phone', tapping 'Build Number' seven times to enable 'Developer Options', and then turning on 'Developer Options' and 'USB Debugging'.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
