EUT Housing and Board View 2	
Solder Board-Component View 1	

Solder Board-Component View 2	 A photograph showing a small green printed circuit board (PCB) component, labeled 'V150M_SUB_V1.0_20200710', positioned on a blue textured surface. The component is oriented horizontally. A black ruler with white markings is placed vertically to the left of the component, showing measurements from 0 to 100 mm. The component's length is approximately 10 mm.
Solder Board-Component View 3	 A photograph showing a larger green printed circuit board (PCB) component, labeled 'V150M_SUB_V1.0_20200710', positioned on a blue textured surface. The component is oriented horizontally. A black ruler with white markings is placed vertically to the left of the component, showing measurements from 0 to 100 mm. The component's length is approximately 100 mm.

Solder Board-Component View 4	 A photograph of a green printed circuit board (PCB) component, labeled 'Solder Board-Component View 4'. The board is irregularly shaped and populated with various electronic components, including a large black integrated circuit (IC) in the center, several smaller ICs, and surface-mount components. It is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters, with the board spanning approximately from 10 mm to 80 mm.
Solder Board-Component View 5	 A photograph of a green printed circuit board (PCB) component, labeled 'Solder Board-Component View 5'. This board is more rectangular than the one in View 4 and features a large black IC on the left side, a smaller IC on the right, and various other components. It is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters, with the board spanning approximately from 10 mm to 80 mm.
