

EXHIBIT 4 - TEST SETUP PHOTOGRAPHS

Conducted Emission Test Setup	 A photograph showing a conducted emission test setup. On a light-colored wooden table, there is a spectrum analyzer with a grid on its screen. To the right of the analyzer, a black rectangular device and a smartphone are placed. Below the table, on the floor, are several electronic components including a power supply unit and a battery pack, connected by various cables. The background is a plain, light-colored wall.
Radiation Emission Test Setup (Below 30MHz)	 A photograph of a radiation emission test chamber. The walls are covered with white, square-shaped absorbers arranged in a grid pattern. In the center of the chamber, a yellow rectangular device is placed on a metal stand. The floor is made of polished metal, and there are yellow and black striped safety markings on the floor. A metal frame is visible in the foreground.

**Radiation Emission Test
Setup (30MHz to 1GHz)**

**Radiation Emission Test
Setup (1GHz to 18GHz)**

**Radiation Emission Test
Setup (Above 18GHz)**
