## **TIT03 Smart Sports Watch**

**FCC ID:2AK9F-38072**

# Smart Sports Watch TIT03

## How to Start

1. Open the package and check the items.
2. Items in the package: (1) the watch TIT03 (with built-in lithium battery); (2) the User Manual; (3) the original charging cable.
3. Combine the charging contacts of the magnetic charging cable with the charging contacts of the watch through the attraction of the magnet to charge, activate and turn on the watch.
4. In the App Store on your phone, find “Fastrack Reflex Vox” and download and install it; or scan the QR code to go to the App downloading page.
5. In the App, set the personal information and step goal.
6. Go to the Home screen of the App, click [Bind a Device] and select the watch in the device list to bind the watch.

## Health

1. If you wear the watch in daily activities, the watch will record your activity data automatically.
2. The watch supports manual measurement of heart rate, SpO2 and stress, and automatic all-day monitoring of stress, heart rate and sleep. You can set the watch to monitor your health manually or automatically.
3. Start an exercise:

On the watch face screen, press the button to go to the App list, where you can click [Sports] and then click a sport (such as Outdoor Run) to start an exercise.

1. Start the Fastrack Reflex Vox App and enable the Bluetooth and GPS.
2. Turn on the watch's screen and bring the watch close to your phone.
3. Go to the Home screen of the App, click [Bind a Device] and select the watch in the device list to bind the watch.
4. Confirm the binding request on the watch;
5. Finally, set the personal information and step goal in the App.

## **Basic Operations**

1. How to wear the watch: make sure that the bottom sensor is attached gently to your skin, and the wrist strap is about one finger away from your wrist.
2. Touch operations: TIT03 supports full-screen touch control, including click (to select) and long-press (to enter) operations.
3. Button operations: TIT03 has a physical button, which supports press (to go to the App list or return) and long-press (invalid) operations.

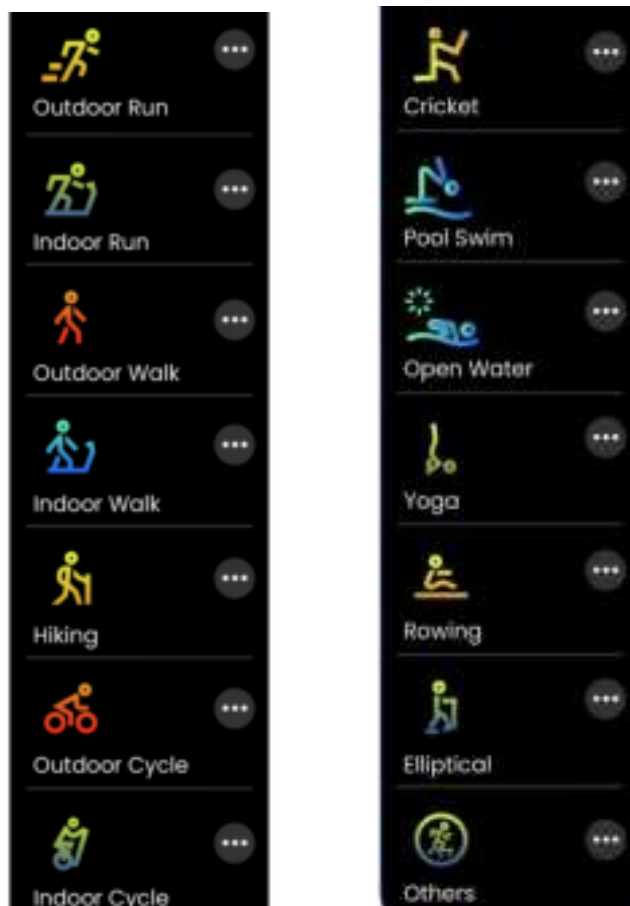

## **Function Information**

1. Watch Face

In the Fastrack Reflex Vox App, you can go to [Watch Faces] to change the watch face. You can also go to the Watch Face Market to download and install more watch faces.

## 2. Sports

a) 14 sports: Outdoor Run, Indoor Run, Outdoor Walk, Indoor Walk, Outdoor Cycle, Indoor Cycle, Pool Swim, Open Water, Hiking, Yoga, Rowing, Elliptical, Cricket and Others.

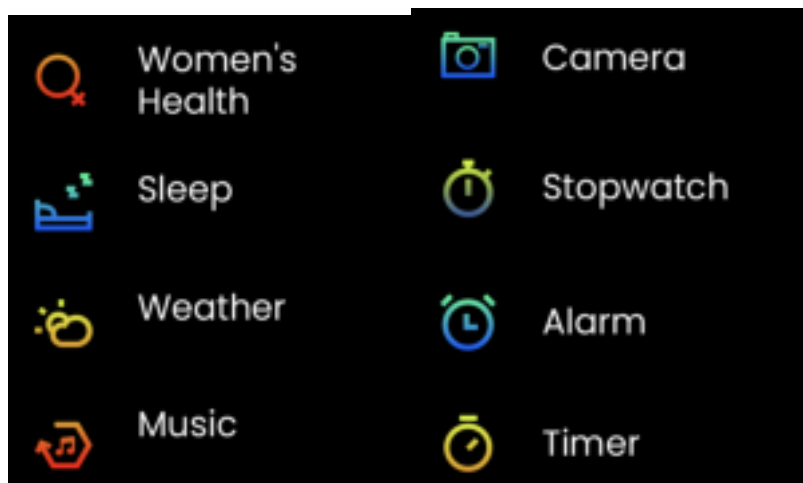

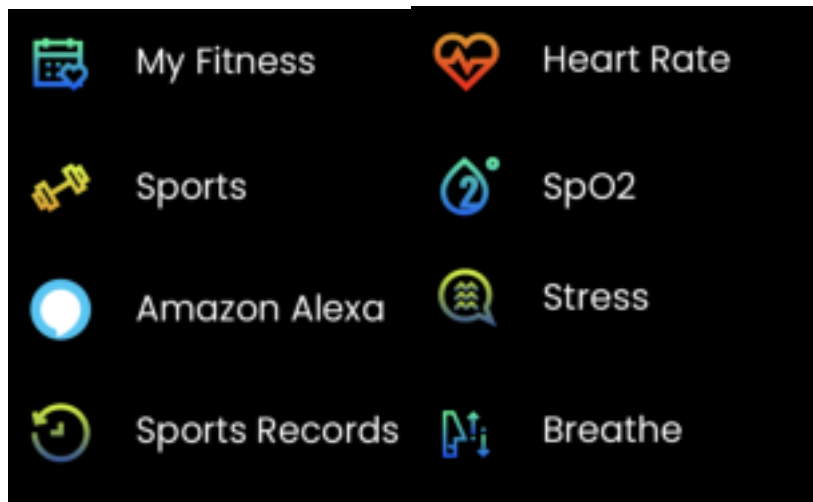

b) Sports Intelligence: to identify that you are running or walking.

c) Sports Summary: to provide the records of multiple sports. You can view the detailed sports data in the Fastrack Reflex Vox App.

## 3. App List

On the watch face screen, press the button to go to the App list (from top to bottom): My Fitness, Sports, Sports Records, Alexa, Heart Rate, Sleep, SpO2, Stress, Breathe, Women's Health, Timer, Stopwatch, Alarm, Music, Camera, Weather, Find Phone, Flashlight and Settings.

### 3.1 Alexa

1. The watch comes with built-in Alexa. If you ask a question or give a voice command on the “Listening...” screen, Alexa will go to the “Thinking...” screen and return the answer or execute the command. You can use Alexa to enable the Stopwatch, Alarm, Timer and Event Reminder on the watch.
2. If the request times out, the voice cannot be recognized, the account is not logged in, the network connection is not stable, or the Bluetooth is not connected, the corresponding message will be displayed.

### **3.2 Health Data**

The watch allows you to view your (step, calorie and km) data of the day.

### 3.3 Heart Rate

1. The watch supports automatic 24-hour measurement of heart rate and allows you to view the all-day measurement data. In the App, you can go to [Settings] to select an interval of measurement or enable/disable the automatic measurement.
2. Each time you go to the heart rate measurement screen, please wait patiently and keep your arm and wrist still during the measurement.

### **3.4 Stress**

1. The watch supports automatic 24-hour measurement of stress and allows you to view the all-day measurement data. In the App, you can go to [Settings] to select an interval of measurement or enable/disable the automatic measurement.
2. Each time you go to the stress measurement screen, please wait patiently and keep your arm and wrist still during the measurement.

### 3.5 SpO2

1. Each time you go to the SpO2 measurement screen, please wait patiently and keep your arm and wrist still during the measurement.

### 3.6 Breathe

1. On the Breathe screen, you can adjust the breathing rhythm to be Rapid, Normal or Slow.

2. Click the START key to go to the breathing exercise animation. Please adjust your breathing according to the frequency of vibration and animation. Reasonable breathing adjustment can help relieve your mood.

### 3.7 Sleep

1. You can view the records of your last sleep and the sleep condition at each stage.

### 3.8 Weather

1. You can view the weather of three days: today's "current weather value, highest weather value and lowest weather value", and the "highest weather value and lowest weather value" of the next two days.

### 3.9 Music

1. After the watch is connected to the App, you can control the music player on your phone to execute such operations as “Next”, “Previous”, “Play/Pause” and “Volume+/-”.
2. In the App, you can go to [Settings] to show or hide this function.

### 3.10 Women’s Health

1. If you are a female user, After the watch is connected to the App, you can set the menstrual cycle and menstruation reminder.

### 3.11 Stopwatch

1. On the watch, you can start the stopwatch and record each lap.

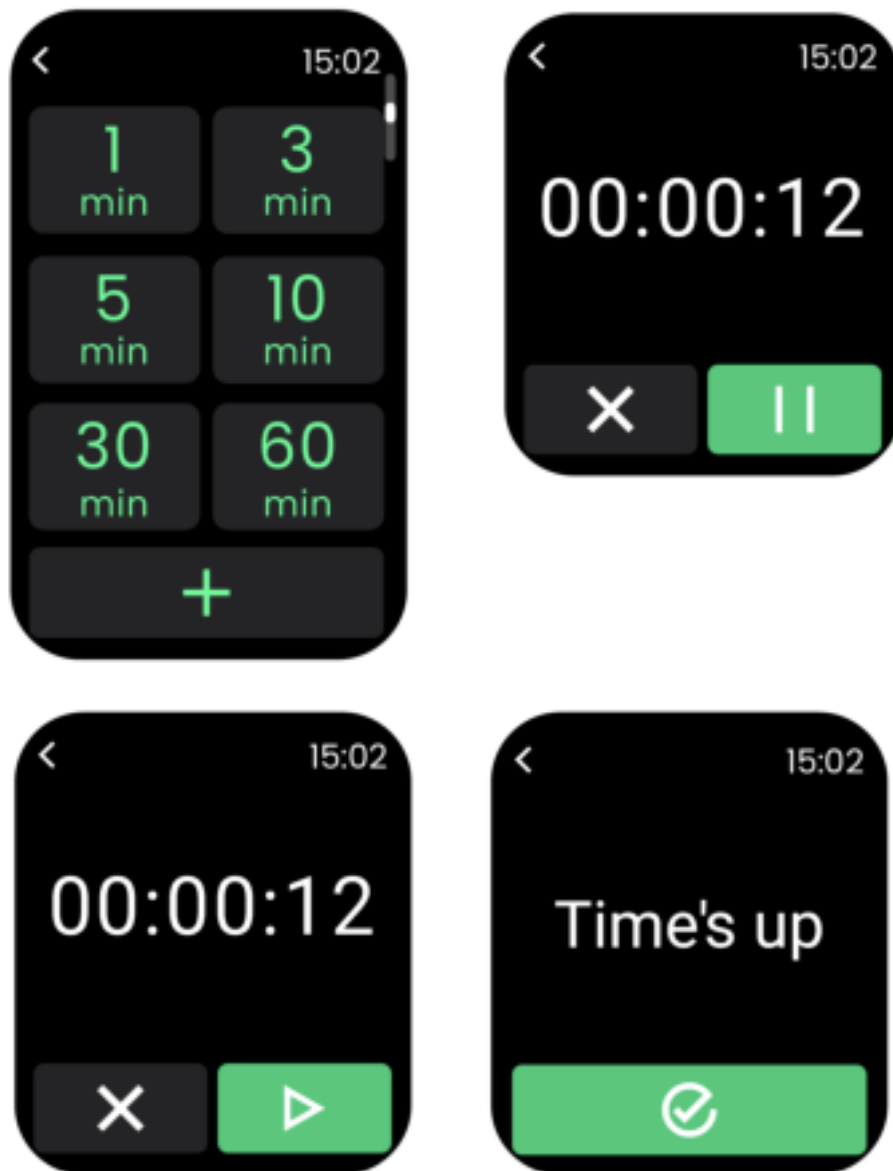

### 3.12 Alarm

1. On the watch, you can create, delete and turn on/off alarms. You can also go to the App to set alarms.

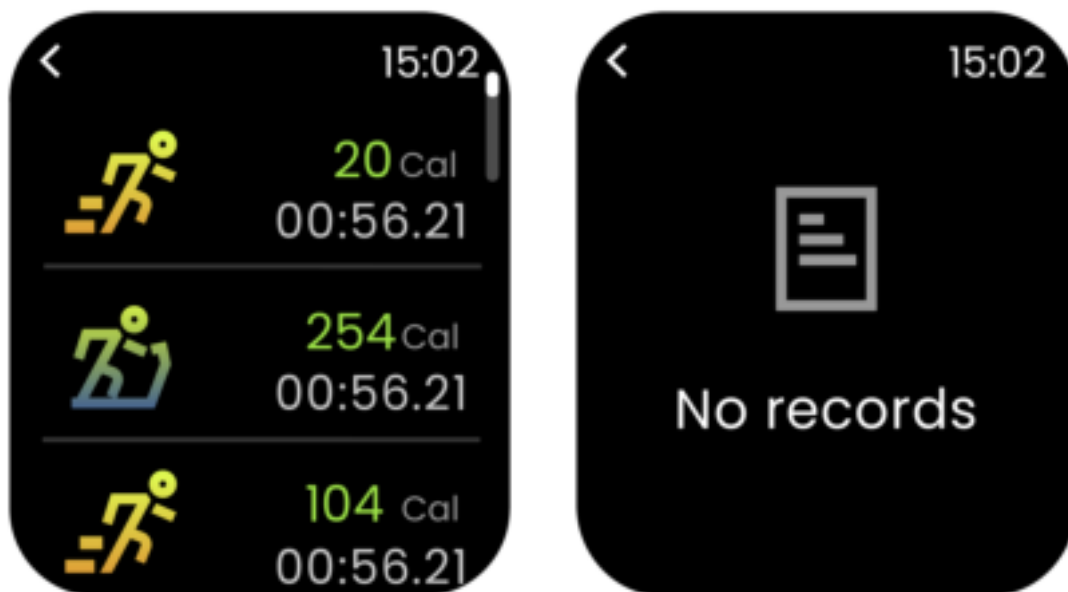

### 3.13 Timer

1. On the watch, you can create a user-defined countdown timer, which will remind you at the end of countdown.

### 3.14 Sports Records

1. On the watch, you can view the records of your recent exercises, including the detailed exercise data. You can also go to the App to view your sports records.

### 3.15 Find Phone

1. After the watch is connected to the App, this function allows

you to activate the ring of your phone.

2. Click the phone icon to stop the ring.

### **3.16 Flashlight**

After entering the Flashlight APP, tap the watch screen to use your watch as a flashlight.
