

Smart Projector

※ Quick Installation Guide ※

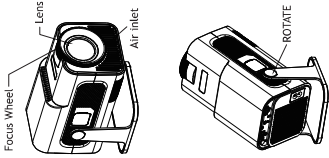

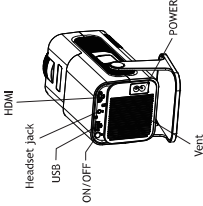

Attention

Please read this manual carefully before use and keep it for future reference.

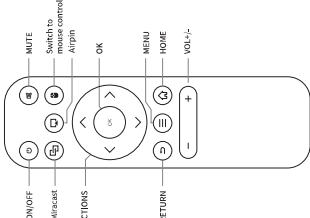

1. The projector is not designed or waterproof.
2. Please avoid use in wet or humid environment. If rain or water splashes, do not expose the projector to rain and fog.
3. Please use the original power adapter. The projector should work under specified rated power supply.
4. When projector is working, please do not look directly into the lens, the strong light will flash your eyes and cause sight pain. Children should use the projector under the supervision of adults.
5. Do not cover the vents of projector. Heating will reduce the life of projector and cause damage.
6. Regularly clean projector vents, or dust may cause cooling malfunction.
7. Do not use the projector in greasy, damp, dusty or smoky environments. Oil or chemicals will cause malfunction.
8. Please cut off the power if the projector is out of use for long time.
9. Please refer to the maintenance section for details.
10. Non-professionals are forbidden to disassemble the projector for testing and maintenance.

Disclaimer This manual is general instructions. The pictures and functions in this manual should subject to the actual product. Our company is devoting to improve product performance, we reserve the right to modify product functions and interface designed in this manual without notice. Please keep your device properly. We are not responsible for any loss caused by wrong operation of software/hardware or repairing or any other reasons. We are not responsible for any loss of any third party claims. This manual has been carefully checked by professional engineers; please understand for any inevitable emissions. FCC Statement 1. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference. (2) This device must accept any interference received, including interference that may cause undesired operation. 2. Changes or modifications not expressly approved by the manufacturer void the warranty and the user's authority to operate the equipment.	Note: This equipment has been tested and found to comply with the limits for a class B digital device pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment does not use and can radiate radio frequency energy and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications; however there is no guarantee that interference will not occur in a particular installation. If this equipment does cause interference to your television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: - Reorient or relocate the receiving antenna. - Increase the separation between the equipment and receiver. - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. - Consult the dealer or an experienced radio/TV technician for help. The device has been evaluated to meet general RF exposure requirement. This equipment should be installed and operated with a minimum distance of 30cm between the radiator and your body.	 Attention: Please do not look directly into the lens when projecting a picture, especially if the light is very bright. When you use the projector, please do not look directly into the lens. Your eyes should use the supervision of adults.
